Product Description
Palm Kernel Expeller (PKE) is a by-product of the palm oil extraction process from the fruit of the palm.
PKE is a quality stock feed containing high levels of crude protein and medium energy levels. It is completely safe to feed as a supplement for most classes of livestock. PKE is ideally suited to feeding in conjunction with high energy feeds such as maize silage or molasses.

Product Ingredients: 100% PKE

Product Standard Specification
- Dry Matter : 90%
- Protein : 17%
- Energy : 11.7 MJ/kg DM
- Crude Fibre : 17.5%
- Fat : 8%

Feeding Recommendation
Requirements will differ depending on current diet. As a guide, if feeding PKE you should introduce slowly to adult dairy cows at 500g per cow per day, increasing to a maximum of 6kg per cow per day.

Storage
Store in a dry area. Ensure all precautions are taken to store away from bird and rodent infestation.

Distributor
International Nutritionals Limited, 19 Home Straight, Te Rapa, Hamilton
DECLARATION

INL makes the following declarations in respect of the animal feed described in this specification sheet. Each of the declarations is given on the basis of INL knowledge at the time of issue of this specification sheet and in reliance that third parties, who supply ingredients and provide mixing/manufacturing services to create the feed, have complied with INL’s animal feed safety requirements.

- 100% GM free
- Does not contain ruminant protein
- Has been processed in a plant dedicated to the production of plant based products only
- Has been inspected after processing in accordance with appropriate official procedures, and found free from contamination by any unprocessed plant material, vermin, birds, faecal material/other animal products
- Consignments are imported in accordance with the Ministry for Primary Industries (MPI) standard for the Importation of Processed Animal Feeds of Plant Origins
- The product in this product specification sheet meets all requirements under NZCP1 Code of Practice
- INL have one up traceability with the product named in this product specification sheet
- PKE is a mechanically extruded product. INL screen and magnetise product prior to loading at origin. While this significantly reduces the risk of metal contamination within PKE, it does not mitigate this risk entirely. INL wish to declare this and believe risk to be minimal.

THIS PRODUCT DISCLAIMER RELATING TO USE MUST BE READ AND UNDERSTOOD

Whilst this product meets the quality standard for an animal feed supplement marketed in New Zealand, the farming environment in which this product is used and how this product is used is beyond the control of International Nutritionals Limited. The use and application of this product requires a proper level of skill and understanding of good farming practices for the feeding and care of dairy animals.

It is a condition of sale that the purchaser of this product is solely responsible either directly or by way of supervision for its proper, skilled and informed use or application in the farming environment.

International Nutritionals Limited and its sales agents (including Farm Source) are neither responsible nor liable for the improper or inexperienced or uninformed use or application of this product and disclaim all and any liability to the fullest extent at law for any direct or indirect, special, or consequential loss, damage, or any other claim or liability of whatsoever nature including but not limited to results obtained, animal impairment, injury or death arising out of or flowing from such improper or inexperienced or uninformed use or application of this product in the farming environment.

All statutory, regulatory and common law warranties, guarantees, duties and any other obligations of whatsoever type or nature inconsistent with the above including but not limited to those under the Sale of Goods Act and the Consumer Guarantees Act are to the necessary and fullest extent excluded.
